# Shazaan Raza

## Product Designer & Full-Stack Engineer

Product designer and full-stack engineer working where tech meets music, fashion and culture. Takes products from Figma to deployed React and Node.js apps, backed by Yeezy campaign work and six music and culture accounts with **2.6M+ combined followers**.

## EXPERIENCE

### Yeezy

Product Designer & Media Lead — Dec 2024 – Present

- Develop UI concepts, feature plans and pitch materials for the **YZY app** in **Figma**.
- Design campaign banners, promo graphics and social visuals for Yeezy releases.

Tour Media Coordinator — Jan 2026 – Present

- Co-led on-site media coverage of Ye's **Istanbul show** and helped manage the content creation contract with ILS Vision.
- Coordinate shooters and media pages on campaigns reporting **20–30M+ views per show**.

YZY App Developer & Marketing Lead — Dec 2023 – Jun 2024

- Designed UI and planned features for the **YZY app** as part of a multi-designer team.
- Built interactive **Swift** prototypes in Xcode for executive product presentations.
- Ran influencer outreach and designed social assets for the **Vultures** album launch.

### Azerty Studio

Full-Stack Developer & Designer — Jun 2024 – Aug 2024

- Designed UI/UX flows and product visuals for creative and e-commerce clients.
- Built client sites and wrote the backend in **Node.js, Express, MySQL** and REST APIs.

### Bianca Censori

Production & Creative Assistant — Apr 2026 – Sep 2026

- Worked with executive and post-production teams on **Ye music video** projects, producing social creative and coordinating deliverables from shoot through post.

## SELECTED PRODUCT WORK

### Instagram Moodboard

Live prototype | GitHub

Independent concept · Figma, React, TypeScript, Zustand — 2026

- Researched why saved posts get lost, then designed two flows in Figma: **save, organize and find similar**, and **turn references into original content ideas**.
- Built and deployed a working prototype with boards, notes, search and **attribute-based similarity scoring** with honest result labels.

### Spotify Samples

spotify-samples.vercel.app | GitHub

Self-directed concept · Figma, React, TypeScript, Vite — 2026

- Designed and shipped a music discovery prototype with **comparison views**, **sample-chain navigation**, simulated playback and microinteractions.

### KWL Studio

kwlstudio.shop

Founder · Brand & Product Design — 2026 – Present

- Designed the brand system, two products and the Drop 001 manufacturer brief, and built the brand site in **Next.js**.

## EDUCATION

**Illinois Institute of Technology**
Aug 2026
B.S. in Computer Science

**Harper College**
May 2024
A.A. in Computer Science

## SKILLS

**Product Design**
UI/UX, Interaction Design, Information Architecture, User Flows, Prototyping

**Frontend**
